

Group Work Form

Member names: A: _____ B: _____ C: _____

Case: Your team is in charge of designing a spreadsheet to store the data of criminal incidents for a local police department. The data are about cyber criminal incidents, cyber criminal suspects, victims, date and time and details of the incidents, and possibly other details that may be useful for police officers. In the box below, list the columns that may be used and example data (3 records). Then, use Microsoft Excel to design the spreadsheet.
